At the April 2008 Education Commission meeting, the Commission approved the 2008-09 school budget. This budget included a small increase in tuition of \$75.00 per student.

Tuition increases could have been much larger if the SCRIP program was not in place and showing signs of growth. Success of the 2008-09 school budget is dependant on SCRIP sales doubling in the next 12 months and the addition of other fundraising projects.

Please support the SCRIP program and school fundraisers to maintain small tuition increases in the future!
